

Accelerating Innovation through Proven Experience

We take care of all of the administrative details necessary to establish and execute your assignment, including confidentiality agreements, billing, and ensuring you are paid promptly for your services - leaving you to concentrate on doing what you love.

Companies in the aerospace, consumer goods, food science, life science, pharmaceutical and other technical industries are looking for your expertise and a different point of view. You'll know that you helped create solutions that contributed to their success.

YourEncore helps companies accelerate technical projects by connecting them with veteran scientists, engineers, and product developers to leverage their expertise. We provide these services to industry-leading companies using a secure and confidential business environment. Procter & Gamble, Lilly, Boeing, General Mills and other Fortune 500 companies have benefited from our resources.

CONTRIBUTE YOUR EXPERTISE AND LEAVE THE PAPERWORK TO US

When you become a part of our Network of veteran scientists and engineers, YourEncore connects you with challenging, cutting-edge opportunities.

Your lifetime of experience is what businesses are seeking to help move projects forward. Your unique set of skills, experiences, and points of view will benefit companies not only within, but also outside your specific industry. Our business model allows you to collaborate with world-class organizations across a variety of fields, without the long-term commitment of full-time employment.

While we specialize in project-specific, limited-engagement assignments, you will also have the opportunity to contribute to on-going needs such as peer reviews, strategy definition, safety reviews, advisory boards and auditing teams.

With YourEncore, there is no need to market yourself or get mired in paperwork - we do all of the work, from identifying projects to administrative support and follow-through.

DO WHAT YOU LOVE ON A FLEXIBLE SCHEDULE

YourEncore will match you to appropriate, project-specific assignments and consultations based on your interest, experience and availability. By working through YourEncore, you will:

- Stay connected to your work
• Work with colleagues in your field
• Continue to contribute to innovation
• Remain intellectually challenged
• Maintain a flexible schedule
• Be compensated fairly

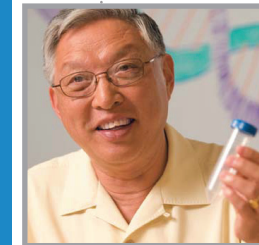

Jon Blake Vice President of Quality and Regulatory

Margaret Swallow, Global Marketing Manager

"Working as a YourEncore Expert is an opportunity to re-connect with the business world in a way that works for this stage of my life. The YourEncore staff handles all of the paperwork with the client and allows me to focus on those areas where I can make the greatest contribution given my professional experience. It's a real win-win experience for the Expert and the business."

Dr. Bill Chen, Toxicologist

"I wanted to retire and spend more time with my family, travel and play some golf, but I can't spend 100 percent of my time doing that. I enjoy working with YourEncore because I can set my own schedule, stay intellectually connected with my professional colleagues and continue to contribute."

Cindy Eddy, Analytical Chemist

"The benefits of being a YourEncore Expert are: getting back into the lab and working, using my skills to solve problems and create new knowledge, keeping my skills sharp, and having fun! Not having to deal with a lot of paperwork makes the process even better."
